INTERNSHIP

Web Developer Intern

Aug '21 - Oct '21

Let's Growmore (A Learning Platform) | Virtual

Website Development

- Worked in the Web Design and Development Department. Website was built using HTML, CSS, and JavaScript.
- Created a web application using ReactJs. The application had to feature an API call to display user data.

PROJECTS

Let's Chat ☐ April – 2023

- Developed a real-time messaging application for developers using ReactJS and Firebase, focusing on enhancing productivity. Differentiated from existing chat applications in the market by catering specifically to developers.
- Utilized modern web technologies to create a functional and user-friendly platform, emphasizing real-time communication and collaboration among developers.

Job Explorer ☑ March – 2023

- Developed a Job Recommendation System utilizing Java Swing for a user-friendly graphical interface.
- Utilized advanced algorithms to analyze user preferences, skills, and educational background to suggest best job opportunities.

Personal Portfolio 🗹

Sept - 2022

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript, providing potential clients with a convenient platform to view my work and learn about my skills, experiences, and services.
- Created an attractive and user-friendly single page layout with five sections Home, Services, Projects, About Me, and Contact ensuring a seamless browsing experience and emphasizing responsiveness.
